**REQUEST FOR RECONSIDERATION BY THE COMMISSIONER OF  
DECISION DISMISSING PETITION TO WITHDRAW HOLDING OF  
ABANDONMENT – 37 C.F.R. §§ 1.181**

Mail Stop Petition

Commissioner for Patents

P. O. Box 1450

Alexandria, VA 22313-1450

Dear Sir:

Applicant respectfully requests reconsideration by the Commissioner of the Decision on Petition dated June 10, 2008 dismissing Applicants' Petition to Withdraw the Holding of Abandonment, for the reasons set forth below.

In the Decision on Petition dated June 10, 2008 DISMISSING Applicant's Petition, the Office of Petitions set forth the following grounds for dismissing the Petition:

The file record discloses that the Notice to File Corrected Application Papers was sent to what was believed to be the email address of record. However, petition contends that it was not received. In support of this contention, petition indicated that Applicant's representative checked the file wrapper for the above-identified application but could find no copy of the purported Office letter dated July 9, 2007 or any other Office communication sent to Applicant after the Issue Fee was paid on May 23, 2007. Unfortunately, no copy of the purported Office letter dated July 9, 2007 or any other Office communication sent to Applicant after the Issue Fee was paid on May 23, 2007 was in the file.

Unfortunately, the requirement under 37 CFR 1.181, **that copies of the actual docket records or file jacket be provided, has not been met.** In a petition under 37 CFR 1.181 the petitioner must show, as in this instance where non-receipt is claimed **that petitioner is without fault in not receiving the communication.** In the absence of any irregularity in the mailing, there is a strong presumption that the Office action was properly sent to the email address of record. This presumption may be overcome by a showing that the Office action was not in fact received at the email address of record.

The statements are not enough to substantiate the claim of non-receipt **and no other corroborating evidence to prove non-receipt has been presented.** In view thereof the holding of abandonment cannot be withdrawn.

Applicant respectfully disagrees with the DISMISSAL of the Petition and more specifically submits that the determinations above in bold were made in error for the reasons set forth below.

**REASONS WHY THE DECISION ON PETITION DISMISSING THE  
PETITION IS IN IMPROPER AND SHOULD BE WITHDRAWN**

The Decision above determined: **that copies of the actual docket records or file jacket be provided, has not been met.** Applicant respectfully traverses this determination by the Office of Petitions.

The document at issue, “the Office communication of July 9, 2007” did NOT exist in Applicant’s file jacket prior to Applicant receiving the copy of the purported Office communication that was attached to the Decision on Petition dated June 10, 2008. Applicant’s representative specifically stated in paragraph 4 of “THE FACTS”:

- 4) In response to the NOTICE, Applicant’s representative checked the file wrapper for the above-identified application **but could find no copy of the purported Office letter dated July 9, 2007 or any other Office communication sent to Applicant after the Issue Fee was paid on May 23, 2007.**

Applicant thus fails to understand what would be accomplished by the PTO requiring Applicant to produce a physical copy of the entire contents of the actual file jacket? Applicant’s representative affirmatively stated above that the document did NOT exist in the file jacket. In the almost 18 years Applicant’s representative has been practicing before the USPTO, never has the USPTO required that a physical copy of the entire contents of an actual file jacket be submitted to the PTO in order to prove a negative – i.e., to prove that a document allegedly mailed by the USPTO to Applicant was NOT received by Applicant. Applicant did, however, provide other supporting evidence proving non receipt of the Office communication, as set forth below.

The objective evidence Applicant produced is set forth in paragraph 5 of THE FACTS (REQUEST TO WITHDRAW NOTICE OF ABANDONMENT dated November 20, 2007):

- 5) Applicant's representative next checked Applicant's electronic database to see if there was any indication of receipt of the purported Office letter dated July 9, 2007 or any other Office communication sent to Applicant after the Issue Fee was paid on May 23, 2007. Unfortunately, no copy of the purported Office letter dated July 9, 2007 or any other Office communication sent to Applicant after the Issue Fee was paid on May 23, 2007 was in the file (ATTACHMENT-5).

Applicant thus provided a copy of his electronic database for the application at hand (ATTACHMENT-5, submitted with REQUEST TO WITHDRAW NOTICE OF ABANDONMENT dated November 20, 2007)(duplicate copy submitted herewith), which is objective evidence that clearly proves that Applicant did NOT receive the purported Office communication of 07/09/2007. Indeed, ATTACHMENT-5 clearly shows that no communications of any kind were received by Applicant on this application after the Notice of Allowance was sent to Applicant on March 29, 2007 (see ATTACHMENT-5, page 2, look for "Notice of Allowance" on the left column, under "Actions").

ATTACHMENT-5 further shows that NO action items were scheduled after the "Issue Fee Due" and "Drawings Required or Due" dated 6/29/2007. Applicant respectfully submits that no additional action items were schedule after the Office communication dated July 9, 2007 was received thus providing evidence that Applicant did NOT receive the Office communication dated July 9, 2007.

Applicant further provided evidence that the USPTO's own "Image File Wrapper" (ATTACHMENT-6 submitted with REQUEST TO WITHDRAW

NOTICE OF ABANDONMENT dated November 20, 2007)(duplicate copy submitted herewith), which is objective evidence that clearly proves that the USPTO had no evidence of what was purportedly sent to Applicant in the Office communication of 07/09/2007.

Thus the determination by the Office of Petitions that – “The statements are not enough to substantiate the claim of non-receipt **and no other corroborating evidence to prove non-receipt has been presented** (Decision on Petition, page 2, lines 4-6)”, is clearly in error and must be withdrawn.

As further prove that Applicant did not receive the Office communication dated July 9, 2007, Applicant submits herewith the Declaration of Sharlet Hurst, an employee of Texas Instruments Incorporated at all times from the date of the Office communication dated July 9, 2007 to the present date, who is U.S. Patent Docketing Administrative Assistant in the TI Legal Department. Sharlet is tasked with the duty of logging into Texas Instruments’ legal data base, all incoming communications to Texas Instruments from the USPTO. Sharlet confirms in her Declaration that the Office communication dated July 9, 2007 was not received by Texas Instruments in email or hard copy (see Declaration of Sharlet Hurst & ATTACHMENTS 8-13).

Accordingly, in light of the above facts and arguments, Applicant respectfully requests reconsideration of the Dismissal of the Petition and hereby reaffirms his request that the Petition request be granted.

No additional Extension of Time or Petition fee should be required being the Notice of Abandonment was issued prematurely. Nevertheless, if the USPTO determines that any additional fee is required, please charge the fee to Deposit Account No. 20-0668.

In response to actually receiving a copy of the Office communication of 07/09/2007 (attached to the Decision on Petition dated June 10, 2008), Applicant has prepared and attached hereto an Amendment – 37 CFR 1.121 that corrects the informalities identified in the Office communication. Accordingly, Applicant respectfully requests: 1) that the Decision on Petition be reconsidered and GRANTED; 2) that the attached Amendment – 37 CFR 1.121 be entered; and 3) that the application be passed to issue.

Respectfully submitted,

/Ronald O. Neerings/

## Title

COMMA FREE CODES FOR FAST CELL SEARCH USING TERTIARY SYNCHRONIZATION CHANNEL

## Description

ABSTRACT A method of processing data comprises the receiving a frame of data having a predetermined number of time slots (502,504,506). Each time slot comprises a respective plurality of data symbols (520). The method further comprises a primary (508), a secondary (510) and a tertiary (512) synchronization code in each said predetermined number of time slots. WHAT IS CLAIMED: 1. A method, comprising the steps of: receiving a frame of data having a predetermined number of time slots; receiving a plurality of data symbols in each respective time slot; and receiving a primary, a secondary and a tertiary synchronization code in each said predetermined number of time slots.
